BABA has been in business since 1982. Producing beautiful aged wooden floors for 27 years….now showing their complete collection at DESIGN HARDWOOD FLOORING in Los Angeles. BABA is the largest supplier of original surface aged wooden floors in the world. BABA is known for superb quality – consistent production and grading of the finest original aged wood. All BABA products are available to view at DESIGN HARDWOOD FLOORING. BABA FLOORS HAVE ORIGINAL SURFACES – rarer, with more character and depth than floorboards cut from beams. Skilled craftsmen repair the original surfaces to preserve the grandeur of their wide widths and long lengths – painstaking work, but the only way to produce floors with up to 20’ long floor boards.

BABA REFERENCES…. BABA has supplied the floors for the owners of….

Chanel, Estee Lauder, Starbucks….

BABA has worked for the finest architects and designers…. Bray-Schaible Design, Clodagh, David Easton, Allan Greenberg, Architect, Mimi London, Peter Marino, Polly Osborne, Architects, Kevin Roche & John Dinkeloo, Architects, John Saladino, Stephan Shadley, Michael S. Smith, Bunny Williams

FLOORBOARDS ARE DIMENSIONED by planning to thickness only from their undersides – leaving the aged contours and surface patina untouched. BABA AGED OAK IS FUMED deepening its natural aged color so that later, when finishing, the grain remains crystal clear and a homogeneous color is attained without the heavy use of stain. This process is historically reserved for fine furniture.

Samples are available from DESIGN HARDWOOD FLOORING 6053 West Third Street. Los Angeles. Ca 90036 323-930-1330 - www.designhardwoodflooring.com

DESIGN HARDWOOD FLOORING is a division of Design Hardware, which for the past twenty three years has been successfully selling high end doors, windows, hardware and bathroom fixtures. Both companies strive towards offering the best product representation and service in the market. Having the two showrooms in one convenient location, allows us to be an important destination for designers, architects and builders.

DESIGN HARDWOOD FLOORING showcases the most innovative flooring collections in Los Angeles, many of them exclusive to us. Our focus is on products and flooring that are sustainable and FSC Certified.
